SEARCH METHODS

Every search box supports "terms and connectors" functionality. This means that each search term you enter is treated as a separate word. If you enter words using no connectors Westlaw UK will automatically connect the words using an 'AND' connector and return all documents where your terms appear. Connectors you can use on Westlaw UK:

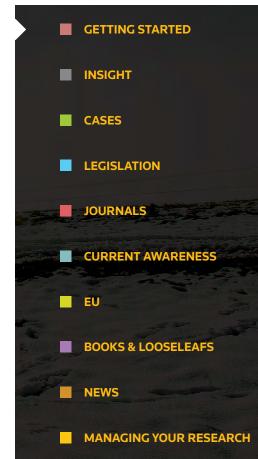

SEARCH CONNECTORS		
CONNECTOR	SYMBOL	RETRIEVES
AND	& (or a space)	Search terms in the same document: trademark & registration
OR	Or	Either search term or both: car or automobile
Phrase	ии	Search terms appearing in the same order as in the quotation marks: "fiduciary duty"
Numerical Connectors	/n	Search terms within "n" terms of each other (where n is a number): person /3 jurisdiction
	+n	The first term preceding the second by n terms (where n is a number): capital +3 punishment
Grammatical Connectors	/s	Search terms in the same sentence: nuisance /s smell
	/p	Search terms in the same paragraph: hearsay /p admissibility
	+s	The first term preceding the second within the same sentence: burden +s proof
	+p	The first term preceding the second within the same paragraph: right +p counsel
BUT NOT	%	Documents not containing the term or terms following the % symbol: taxation % income
		Use the % connector with caution; it may cause relevant documents to be excluded
Root Expander	!	Additional suffixed endings to words searched: contract! retrieves contracted, contractual, contracting
